 Examiner, Art Unit 2439

Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed with applicant's representative how the claim 1 broad nature still did not bring out the patently distinct features of the applicant's invention - insofar as separate processors involved in the graphics controller and the OS that was to be booted upon authentication via use input by the graphics controller GUI. Agreement was reached as to modifying the claims via examiner amendment to bring out said features..
